## How to Download and Rip Amazon Prime Video on PC and Mac

With more and more excellent TV series, music and movies appearing on Amazon Prime Video, it has become one of the most popular video streaming websites, just like another Netflix. As well-known as its various video resources, Amazon Prime Video has a set of strict video protection regulations.

There are several types of service in Amazon Prime Video: you can either purchase your favorite videos, or rent them, or register as a Prime member, for streaming and downloading videos. However, Amazon has imposed rigid limitations on the downloading and viewing. Even if you've got the right to download the videos you like after you paid to rent them, for example, you only have 48 hours to finish watching them once you start streaming or downloading, and the videos will expire after 30 days from the payment of the rental fee.

Although for purchased videos, Amazon gives indefinite viewing period, you can only download the videos to four kinds of compatible devices: Fire tablets (other than Kindle Fire 1st Generation), Fire phone, and Android and iOS devices. In this case, it becomes impossible to enjoy the favorite Amazon video on your laptop offline. So is there any way to **save or download Amazon video to PC** for offline watching?

Sure it is. In this post, we will show you how to download Amazon Prime video to PC/Mac through a smart recorder. Read on and have a try!

### 1. Can I Download Movies from Amazon to My Computer?

You are able to download any video to your Fire tablets, Android or iOS devices within the Amazon Video app, as long as you have the downloading option. But unfortunately, because of the digital rights management (DRM), Amazon **doesn't allow users to download the videos to PC** for watching. Even though you've purchased that video, you still cannot download it to other devices not approved by Amazon.

There is much so-called Amazon video downloader software or service on the market, but they are can't actually help you download Amazon videos you want to the computer. So we would like to advise users to record the Amazon videos with recorder software to **capture Amazon videos** for offline viewing.

### 2. How to Rip and Record Amazon Prime Video

To easily and successfully rip and record Amazon Prime Video to PC for offline watching, **FonePaw Screen Recorder** is highly recommended to you. It is a well-rounded recorder app that offers many useful functions in recording videos with audio, including various videos formats and presetting the recording time.

By using FonePaw Screen Recorder, you are able to record and **convert any Amazon videos to MP4, MOV** or other format you like. The feature of "**presetting the recording time**" allows you to set up a certain recording time so you don't have to sit in front of the screen to wait for the recording to end.
