2014: Product keys for Autodesk products

Share

Product keys are required for installation of Autodesk products and are used to differentiate products that are both sold independently and as part of a product suite. For example, installing AutoCAD 2014 as a point product requires product key **001F1**, but installing AutoCAD 2014 from the Autodesk Product Design Suite Ultimate 2014 requires product key **781F1**. The same version of AutoCAD is in both software packages but the product key differentiates one package from the other.
